About Us

- A secure platform for users to share thoughts freely with **anonymous** listeners (DilDost) or psychologists.
- Choose between **empathetic** listeners for casual support or **professional** therapists for personalized care.
- Access relaxing games, wellness articles, and **community** support to foster **mental well-being**.

VISION AND MISSION

Our Vision

“A world where every voice is heard and every story valued.”

Our Mission

To provide accessible, compassionate listening and professional support that empowers people to share openly and find peace.

Dil Se Dil Tak

Persona

User Profile

- **Name:** Rhea Kapoor
- Age: 23
- **Occupation**: Marketing Executive
- **Location:** Lives alone, metro cities
- **Education**: Bachelor's degree in Business Administration
- **Income:** 6 LPA.

Persona

Background

Rhea, a driven marketing executive in a fast-paced environment, recently moved to a new city for her job. She struggles with work pressure and loneliness but hesitates to seek professional help due to stigma and time commitment.

Goals

Find a way to manage stress and anxiety without committing to traditional therapy.
Have a safe space to talk about her feelings without fear of judgment. Maintain anonymity while seeking support.

Persona

Challenges

Feels isolated and struggles to build a social circle in a new city. Experiences high levels of stress due to work demands. Concerned about the stigma associated with seeking mental health support.

Motivations

Wants a convenient and non-committal outlet for her emotions. Seeks immediate relief from stress and anxiety. Values anonymity and privacy.

Unique Selling Proposition

DilDost Calls

DilDost Calls are one of the most defining features of Aur Sunao, offering users the opportunity to **connect anonymously with empathetic listeners**, called DilDosts, **without the fear of judgment or exposure**.

This feature caters to users who may be uncomfortable discussing their struggles in a traditional mental health setting or who feel **isolated** and **crave an outlet** for emotional release.

Unlike conventional therapy, DilDost Calls offer a more **informal**, **peer-like** support system where users can simply "talk things out" and feel **genuinely heard**.

How is it unique?

AUR SUNAO

DilDosts are trained to provide **compassionate listening** rather than clinical advice, which encourages a less intimidating, more **approachable** atmosphere.

Each session is structured to maintain **anonymity**, reinforcing a safe environment where users can **freely share** their experiences, making this ideal for individuals who face **cultural stigmas** around mental health.

The user can select DilDosts based on criteria such as **gender** and **age**, creating a more **personalized** and **relatable** experience.

Other Unique Features

Psychologist Sessions

With Aur Sunao, users have the option to book **video sessions** with licensed psychologists from across India.

These sessions provide **structured**, **professional** mental health support that is convenient and **accessible**, especially for individuals in high-stress environments or dealing with complex emotional challenges.

Users can choose **half-hour sessions** based on their availability and budget, with the freedom to select professionals based on their experience, specialization, and user ratings.

How is it unique?

AUR SUNAO

Unlike traditional in-person therapy that may require significant time and effort to access, these **virtual** sessions are designed to be highly **accessible**, allowing users to connect with a mental health professional from any location.

The option to **filter** psychologists by their **experience** and user **ratings** ensures users find a professional suited to their needs, making each session more **effective** and **personalized**.

Other Unique Features

Relaxing Games

Aur Sunao offers a selection of relaxing games specifically designed to help users **unwind** and **manage stress**.

These games are easy to access on the app and provide a **quick escape** for users needing a **mental break** during a stressful day or after an intense emotional session.

This benefits individuals who frequently experience anxiety or stress, especially **young adults** and working professionals under **high pressure**, who may not want to engage in a full session with a DilDost or psychologist but still need quick relief.

How is it unique?

AUR SUNAO

In an era where stress is increasingly prevalent, these games offer a **low-commitment** method for **stress relief**.

They are carefully selected to provide **therapeutic** benefits, such as calming activities that promote focus and encourage **mindfulness**.

This feature aligns with the platform's **mental wellness** mission, ensuring that users have a safe, **constructive** way to alleviate stress.

Other Unique Features

AI Chatbot (24/7 Buddy)

Aur Sunao's AI chatbot serves as a **virtual assistant** and **emotional companion**, guiding users through various app functionalities, such as navigating features, booking psychologist appointments, and answering general mental health questions like "How do I manage my stress?"

The chatbot is capable of having full **conversations** with users, about their feelings, or whatsoever mental **concerns** they may be facing in that moment.

Mental health resources aren't always accessible when users need them the most, and many people may hesitate to ask for help. Available to users around the clock, our chatbot is designed to be a **reliable**, supportive presence.

How is it unique?

AUR SUNAO

Unlike traditional chatbots, Aur Sunao's AI bot has been **tailored** to provide emotional support as well as **technical assistance**.

It is designed to respond with **empathy**, creating an **approachable** atmosphere for users who may feel uncomfortable reaching out to human support.

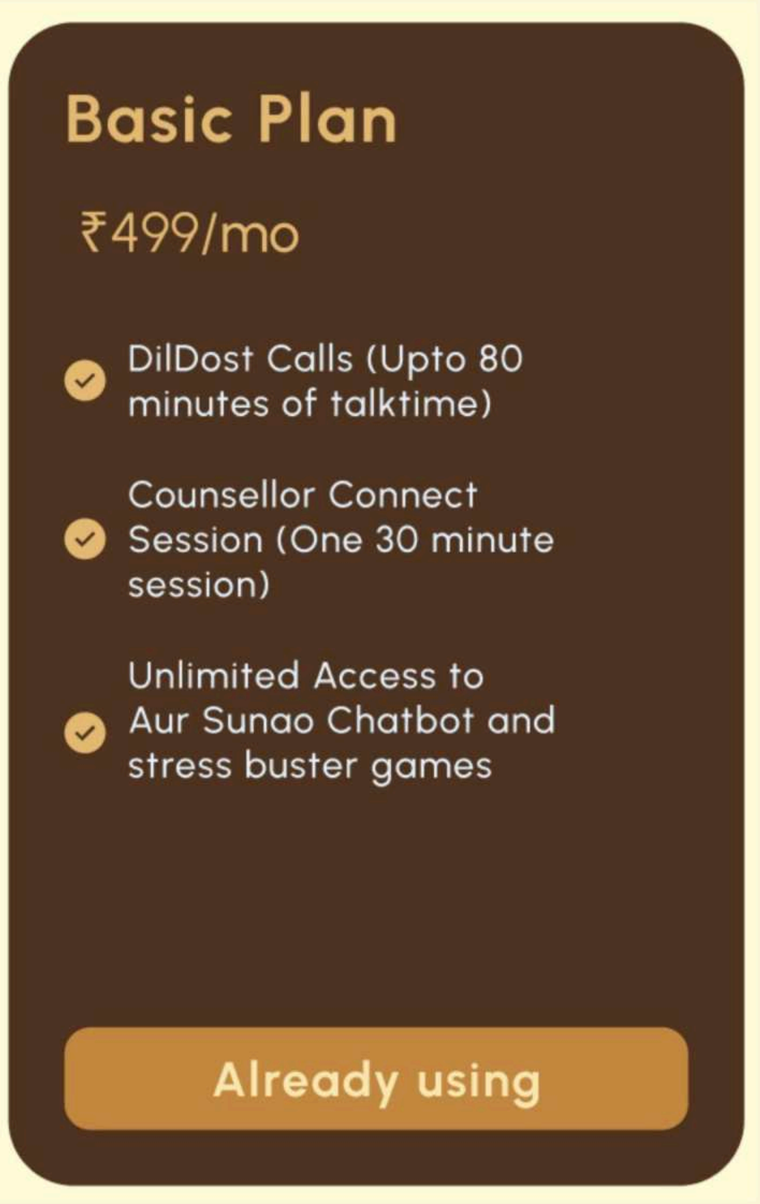

Available **24/7**, it can respond instantly, providing a **lifeline** for users who may need help or **reassurance** at any time of day.

Pricing Plans

Basic Plan

- ₹499/month
- DilDost Calls: Up to 80 minutes of talk time
- Counselor Connect: One 30-minute session
- AdditionalBenefits: Unlimited access to chatbot and stress-buster games

FlexiFare Plan

Key Points:

- DilDost Calls: ₹90 for 10 minutes of talk time
- Counselor Connect: ₹450 for a 30-minute session
- Additional Benefits: Unlimited access to chatbot and stress-buster games

What 54 Potential Users Told Us

Primary research: online survey, August 2024

AUR SUNAO

80%

would rather talk to a **human listener** than an AI. Only **2 of 54** chose AI.

78%

rate privacy and confidentiality **5 out of 5** in importance.

39%

need someone to talk to **weekly or daily** but find no one available.

11%

have **ever used** a platform to find someone to talk to: an untapped market.

What this means for the product

- **DilDost calls are the core product.** People want a human, and 80% want someone who both listens and advises.
- **Anonymity is the main selling point**, not a nice-to-have.
- **Voice first:** 67% choose voice calls, 61% text, 37% video.

Caveats

Convenience sample: 89% are aged 18–25, recruited through the team's network. Four said they would not trust or use a service like this. Treat these figures as directional, not market-sized.

Source: Aur Sunao user survey, 54 unique responses (one duplicate submission removed).

The ₹499 Basic Plan Loses Money

Cost to deliver one subscriber for one month

Subscription price	₹499
DilDost payouts (64 of 80 min used × ₹7.20)	−₹461
Counsellor payout (₹360 × 80% usage)	−₹288
Payment gateway (2.36%)	−₹12
Contribution per subscriber	**−₹262**

Assumes listeners and counsellors keep 80% of the pay-per-use price (the team's own revenue split) and subscribers use 80% of what is included.

₹761

to deliver a plan sold for ₹499. The plan bundles **₹1,170** of pay-per-use value (80 min at ₹9 + one ₹450 session) for ₹499: a 57% discount.

So what: the plan never breaks even. Every new subscriber adds ₹262 to the monthly loss, so growth makes the business worse. Even the pay-per-use FlexiFare prices earn only an 18% margin.

Source: Aur_Sunao_Unit_Economics.xlsx (all inputs editable). Gateway fee: Razorpay standard pricing, 2% + 18% GST.

Recommendation: Rebuild the Basic Plan

AUR SUNAO

Same ₹499 price, a plan that pays for itself

1. 60 DilDost minutes

Down from 80. Still two 30-minute calls a month; heavier users top up at the ₹90 per 10-minute rate.

2. Counsellor on demand

Take the ₹450 session out of the bundle and sell it pay-per-use. It earns ₹79 per session instead of costing ₹288 per subscriber.

3. Drop the AI chatbot

Only 2 of 54 users wanted AI, and an AI holding full mental-health conversations is a clinical and legal risk. It saves ₹2,500 a month.

+₹154

contribution per subscriber per month, up from −₹262 (includes 15% buying one paid session)

440

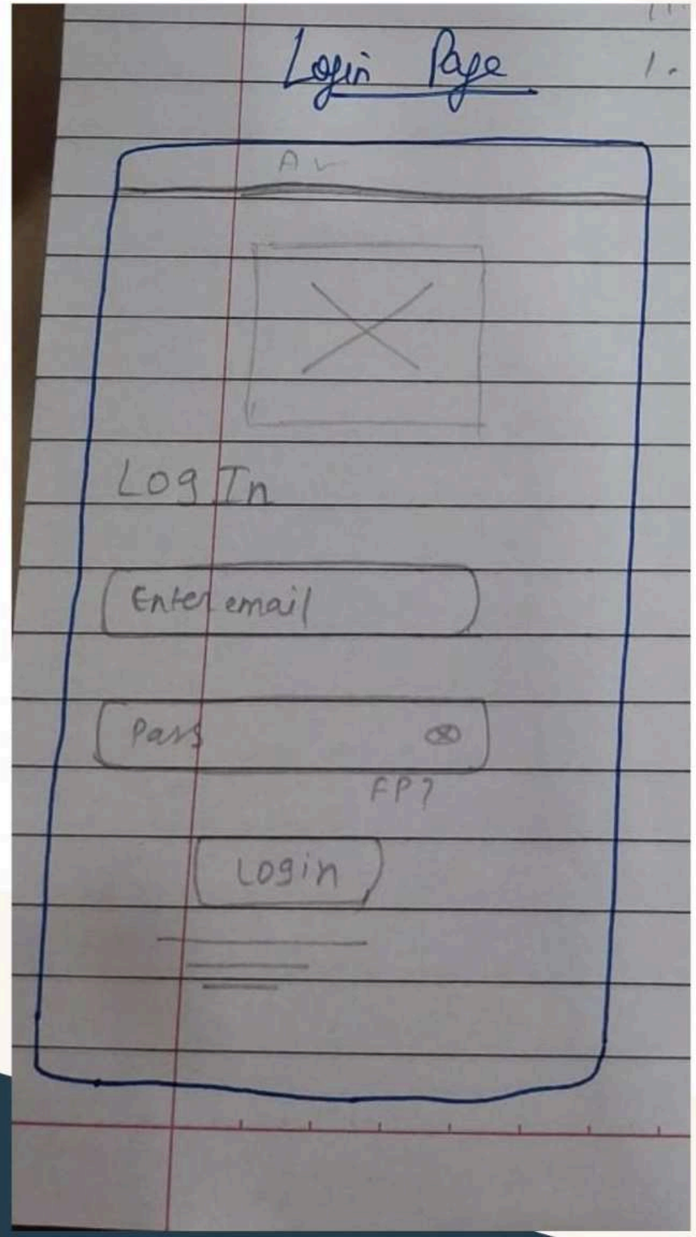

subscribers to break even on ₹67,500 of monthly fixed costs

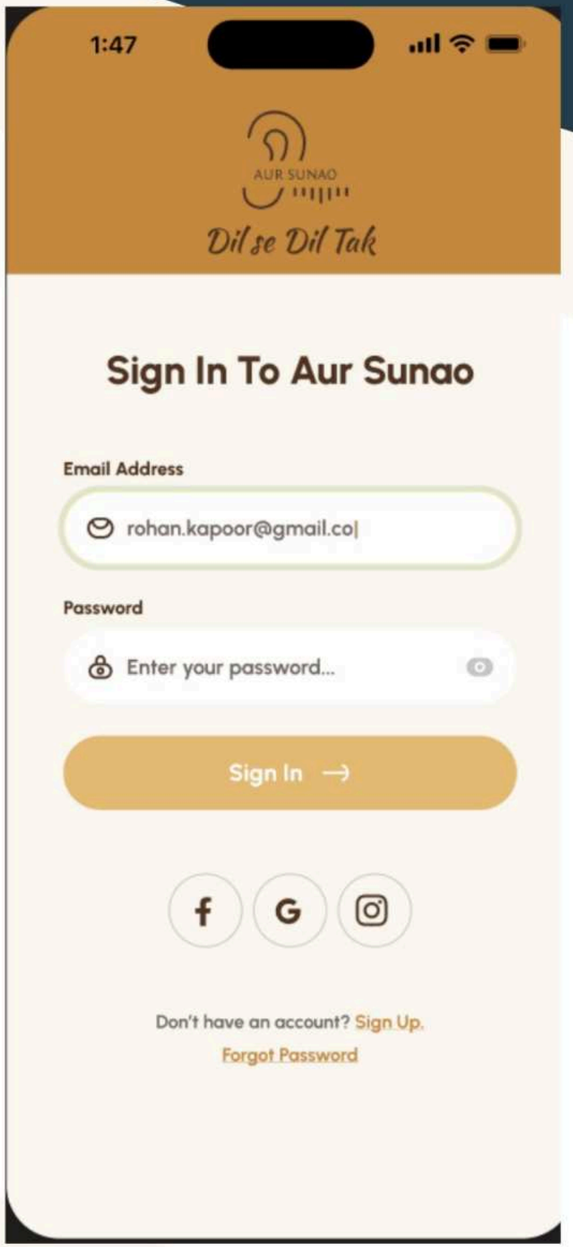

+₹67

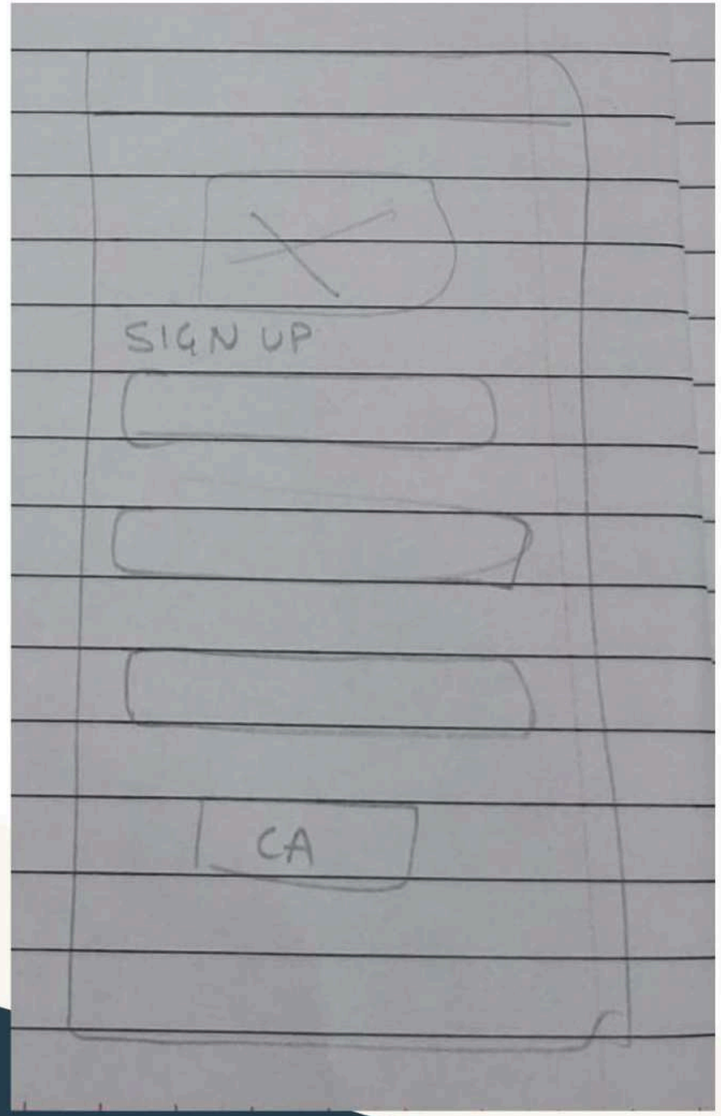

per subscriber even if **every** user uses all 60 minutes: the plan stays profitable

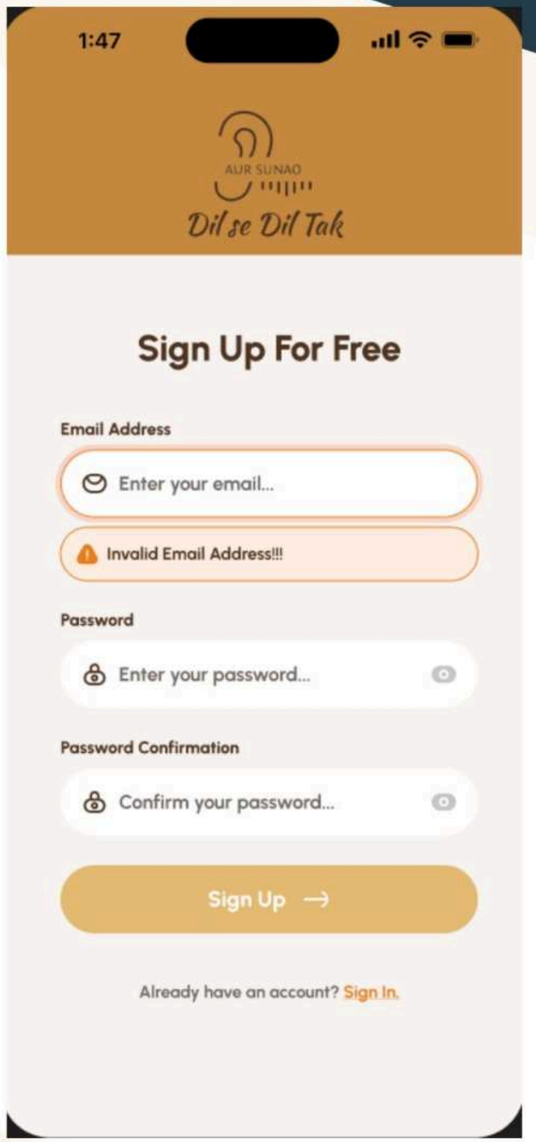

Source: Aur_Sunao_Unit_Economics.xlsx. Sensitivity: break-even ranges from 193 to 1,837 subscribers across 50–100% usage and 60–85% payout share.

ChatAI
Hi there! I'm here to listen and support you. How are you feeling today?
Hey, I'm not doing too well. I've been feeling really overwhelmed lately, and I'm not sure how to deal with it.
I'm sorry to hear you're feeling this way. It sounds like things are really weighing on you right now. Do you want to talk more about what's been overwhelming you?
Yeah, it's mostly work and personal stuff. I just feel like I'm not doing enough, and everything is piling up.
That sounds tough, juggling both work and personal stress. It's natural to feel overwhelmed when there's so much going on.
Have you noticed if there's a specific thing that's been making it feel like too much lately?
